Dear Bill,

You are absolutely the best trial attorney I have ever witnessed, and in my trial, as Plaintiff, I saw the judicial process from a different point of view. After practicing law for 36 years I was comfortable in a courtroom. My comfort turned to unceasiness when I was sitting in the "other chair", being the plaintiff and being represented. I was not in control at that point, and it was completely alien and terribly uncomfortable for me. Fortunately, you were my attorney. I was amazed at your complete control of every aspect of that trial. Not only were you prepared, you also, throughout the trial, anticipated what might transpire, having solutions for every situation.

I was struck by your demeanor, your confidence, both of which are born only through preparation. You took my case and conducted the proceedings in what I would describe as a flawless trial performance. I am grateful to you for that first class representation.

I realize you have other clients who appreciate your abilities, but as a practicing attorney, I have seen many trials and many trial lawyers. Never have I been so impressed with the professionalism, the preparedness, the first rate support team, and the complete concentration on the matter at hand as I saw from you those days in September. In the courtroom, you were magnificent at every turn.

I respect your work ethic, your tenacity, and your dedication to your clients. I will forever be indebted to you, to Ross and to your wonderful staff.

Sincerely,

HERBERT B. SPARKS
